

## **PETROSUN Has Supplied Social Fuel Oil to Kazakhstan Regions for 42%**

**17 October 2023**

**Almaty**

Since September 2023, PETROSUN has carried out fuel oil supply to the regions of Kazakhstan in the total volume of 22,420 tons. The provision with fuel oil is 42%. At the same time, another 9,140 tons of social fuel oil have been nominated for shipment at the three Kazakh refineries.

PETROSUN delivers fuel oil under the "Schedule of assigning regions and Astana, Almaty and Shymkent cities to the main resource holders of oil and petroleum products on fuel oil supply to social and industrial facilities and institutions in the 2023-2024 autumn-winter period" (hereinafter the Schedule) approved by the Ministry of Energy of the Republic of Kazakhstan and in accordance with targeted distribution of local executive bodies.

Last month, PETROSUN as part of the September volume provided for in the Schedule supplied fuel oil for 94%. There were delivered 25% of the monthly volume of fuel oil in October. The obligations will be fulfilled in full as payment is received from regional operators.

Karaganda, Akmola, Zhambyl regions and Almaty city were among the first to receive social fuel oil. The volume of supplied fuel was 12,180 tons.

Currently, the supply of fuel oil to the regions continues. The amount of 10,240 tons was delivered out of the volume of 30,430 tons planned under the Schedule for October.

From November 2023 to February 2024, PETROSUN intends to supply fuel oil to the regions assigned by the Schedule, namely: Atyrau (2,000 tons), Karaganda (25,647 tons), Ulytau (4,761 tons), Pavlodar (7,418 tons), East Kazakhstan (4,619 tons), Abay (540 tons), North Kazakhstan (3,869 tons), Zhambyl (15,028 tons), Zhetysay (6,876 tons), Turkestan (1,700 tons), Kyzylorda (6,085 tons), Mangistau (2,700 tons) and Almaty (614 tons) regions and the cities of Astana (1,000 tons), Almaty (10,592 tons), Shymkent (10,000 tons) and Baikonur (4,800 tons). The total volume will amount to 108,249 tons.

It should be noted that PETROSUN, unlike other resource holders, accounts for a significant part of social obligations. This is almost 60% of the total fuel oil supply according to the Schedule, which corresponds to 161,892 tons.

PETROSUN continues to fulfill the social obligations imposed on it by the state within the Schedule in full within the agreed timeframe.

**For reference:** PETROSUN LLP was established in January 2012. The company is a subsidiary of JSC National Company "KazMunayGas" and CNPC International in Kazakhstan LLP. Its core areas of activity include: crude oil purchase and refining, and refined products sale in the domestic and foreign markets.
